

Customers that own the SDB 103 beveling machine will benefit from this new rotating tool holder featuring a wedge style tool locking system. Designed for the SDB 103, it utilizes our new 37 1/2° bevel tool bits offered at very competitive pricing.

- Accomodates the new 70-700-00 (37-1/2°) bevel tool
- Adaptable to competitive machines

The new 70-700-00 beveling tool provides a smooth clean prep.

The new wedge style rotating head is a direct replacement for the old SBD rotating head and is secured in the same fashion.
